

Nitron shock absorber for YAMAHA EXCITER150 ('17-) debuts

YAMAHA EXCITER150 is available in many of Southeast Asian countries and the bike is very popular with its affordable price and stylish design. The standard rear shock is set hard to handle the heavy load which is unique in Southeast Asia. Nitron emphasizes the drivability for solo ride to be comfortable. And the shock absorber which ensures "enjoyable ride" in various situations from town to sport ride has been developed and it's now on sale. During the development the test rider of Nitron Japan repeated the test runs in Bira International Circuit in Thailand. The tests were also conducted on the streets collaborating with the local rider. The shock is thoroughly set to fit the use in Southeast Asia. Reflecting the local needs the shock guarantees to be satisfactory under various situations. The shock is delivered in Japan simultaneously for the imported bike. MINI R3 Series for sport ride and MINI R1 Series for street ride are available according to the riders' needs.
